**DOCKET NUMBER**  
**PROPOSED RULE PR 73**  
**(70FR67380)**

Secretary, U.S. Nuclear Regulatory Commission,  
Washington, DC 20555-0001, ATTN: Rulemakings and Adjudications Staff

DOCKETED  
USNRC

I am writing because you have failed in the area of public safety. You have not taken steps (by amending your rules ) to decrease the possibility of air attack on nuclear power plants. Is this simply because the costs of implementing shields against air attacks would be too high for the utility companies ?

January 17, 2006 (2:19pm)

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

I believe that the NRC should be looking out for the public's safety rather than the utilities' profit margins. The nuclear power plants and the waste stored on site are here to stay and you must take measures to keep the radioactivity contained in the event of terrorist attack. Otherwise, you fail the people that it is your mission to protect and serve. Elena Day,  
Charlottesville, VA
