Dear NRC,

I am worried about what is going on with security in our Nuclear plants. We have still not taken adequate measures to prevent an accident and I would like an explanation as to why you feel so confident that these measures aren't necessary?

Could it be because our own government planned and manipulated 9-11 with the Israelis? Could it be because we already know what is going to happen and we don't feel threatened?

I am urging you to support a push for tougher security measures.

Sincerely,

D. White
