

NOTE TO FILE

January 18, 2006

License No.: 41-25370-01 Control No. 137031

Docket No: 030-34258

This docket file contains documents related to the license that is referenced under Item 5 of this license (01-06113-03). Among these documents are correspondence regarding a burial site at TVA's Muscle Shoals, Alabama property. There is a letter from TVA, dated 9/5/95 describing the burial site and a stated intent to decommission it. Another letter from TVA is dated 2/27/96 and includes a list of radionuclides and amounts buried at the site. There is also a request for an extension in the submittal of a Decommissioning Plan for the site. The docket contains no subsequent DP or close out of this burial site.

TVA sent a letter dated 8/30/05 with a stated intent to cease principal activities under this license. In light of this request, TVA will probably request termination of the license within the next 24 months. I was reviewing the Financial Assurance for this license, and came across the burial site documents, and am writing this note to file to save the license reviewer who will work on the eventual termination some time.

I searched the ADAMS Legacy library and found documentation of a dose assessment and staff (NMSS) determination that the burial site may be released for unrestricted use. The reference accession number is ML9903310297. The dose assessment is under ML9903310298. I assume these documents are in the 01-06113-03 docket, which is archived.

if there are any questions on the above, contact me at 610-337-5240
