Dear Sirs,

Our facility would like to request a renewal of our materials license #45-02207-01 due to expire on January 31, 2006. We have reviewed our current license and would like to retain all information therein except for the following:

Part 7D (Chemical and/or Physical Form) We would like to add Iodine-125 sources which are used during prostate brachytherapy procedures.

Part 8D (Maximum Byproduct Amounts) We are currently listed for 100 mCi under 10CFR35.400 and we would like to increase this amount to 1.0 Ci. to accommodate our Cs-137 and I-125 brachytherapy sources. The 100mCi quantity was erroneously listed on our license sometime in 2003 (during the Part 35 change by your agency).

12B (Authorized Users) We would like to remove the following authorized users:

James L. Lynde, M.D.
Lawrence D. Larkin, M.D.
Mark D. Wofford, M.D.

We would like this letter to notify your agency of our intention to renew our license as our expiration date is soon approaching. Please notify us if this is sufficient information for the license renewal. We understand you may require a complete set of forms from NUREG 1556 Vol. 9 Appendix C.

Sincerely,

Brian R. Hames, M.S., D.A.B.M.P.
