Summary: Mr. Sims was questioned regarding the Elkem Metals Company letter dated December 16, 2005 which stated that License No. 47-19784-01 was being transferred to West Virginia Alloys on December 21, 2005.  Mr. Sims stated that the U.S. Route 60, East Alloy, West Virginia facility was sold to WVA on short notice, however, the radiation safety program for the facility continues to use the same program with the same personnel such that the sale reflects a simple ownership change.  It was explained that additional information would be required from the licensee to complete the desired license change. It was agreed that the NRC would contact the licensee RSO and request the necessary information.
