Secretary, Rulemakings and Adjudications, U.S. Nuclear Regulatory Commission
ATTN: Rulemakings and Adjudications Staff
Washington, DC 20555-0001

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Secretary, Rulemakings and Adjudications, U.S. Nuclear Regulatory Commission,

Given today's climate of potential terrorism, the NRC ought to be proposing significant upgrades to existing security requirements for nuclear facilities. The NRC has the responsibility to include consideration for 9/11-level threats when developing policy. Current security measures should be improved so that the nuclear facilities can withstand an attack by air, and an attack by a large group of attackers.

Since the NRC proposal provides nothing but inadequate measures and vague generalities, I support of the Committee to Bridge the Gap Petition for Rulemaking to upgrade reactor security, including suggestions such as the construction of "Beamhenge" shields for additional protection from air-based threats.

Sincerely,

William Perkins, M. D.
1347 Avenida De Cortez
Pacific Palisades, California 90272
