OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

We urge you to support Committee to Bridge the Gap petition for Rulemaking to upgrade reactor security. There should be protection against at least 19 attackers and construction of "Beamhenge" shields so planes crash into shields, not the reactor facilities.

2. The NRC's proposal of "protecting" the reactors is a joke; It's unacceptable to exempt air attacks and having only 2 land guards.

3. Public comment is important and by making secret deals with industry and then pretending to have comment periods with no specifics, damages both our public confidence and public security.

4. We urge you to support Bridge the Gaps petition for Rulemakings to upgrade reactor protections by building Beamhenge and increasing the number of people. Bridge the Gap's petition will protect us against terrorist attacks by land or by air., Thanks, Florence ,Dorri and Bernard Raskin
