Reference: 1) USNRC Certificate of Compliance No. 9228, Docket Number 71-9228.

Dear Mr. Nelson:

The General Electric Company, Vallecitos Nuclear Center (VNC) holds Certificate of Compliance No. 9228, Revision 22, set to expire on March 31, 2006.

VNC respectfully request the certificate be renewed under the provisions of 10CFR71.38. The current operating procedures, acceptance tests, and maintenance programs for the Model 2000 Package have been reviewed and no changes are required since the previous submittal dated July 28, 2005. VNC understands that by submission of this request, the reference Certificate is in a "Timely Renewal" status.

Please contact Mr. Raul J. Pomares at 925-862-4578 or the undersigned if you require additional information.

Sincerely,

✓  Juan G.
