Docket No. 52-010

January 25, 2006

U.S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, D.C. 20555-0001

Subject: **Framework and Schedule for GE Licensing Topical Report Related to ESBWR Fission Product Removal**

Enclosure 1 contains the framework for the licensing topical report (LTR) currently under development to address the ESBWR fission product removal evaluation model. Additional technical data that is listed as references within this framework document is being submitted since it forms much of the basis for the development of the LTR conclusions. Enclosure 1 also addresses related DCD revisions. GE will submit the following LTR:

- “ESBWR Fission Product Removal Evaluation Model”

We will provide scheduled submittal dates for the LTR in the near future. It is our intention to send a draft version of this LTR as soon as it is assembled with the additional analysis that is discussed in the framework document followed by the final version.

If you have any questions about the information provided here, please let me know.

DS68

Sincerely,

A handwritten signature in black ink, appearing to read "D. Hinds for". The signature is written in a cursive, flowing style.

David H. Hinds  
Manager, ESBWR
