SUBJECT: MAINTENANCE OF REFERENCE MATERIAL AT THE VERNON FREE  
LIBRARY FOR THE VERMONT YANKEE NUCLEAR POWER STATION  
LICENSE RENEWAL APPLICATION

Dear Ms. Boudreau:

This letter is a follow-up to our conversation on January 19, 2006, at the Vernon Free Library, concerning the maintenance of relevant documents by your library. These documents are related to the U.S. Nuclear Regulatory Commission (NRC) staff's review of the application by the Entergy Nuclear Operations, Inc. for renewal of the operating license for Vermont Yankee Nuclear Power Station for an additional 20 years. The application was received by the NRC on January 27, 2006.

The Nuclear Regulatory Commission (NRC) staff appreciates your willingness to assist the public in participating in the license renewal application process. As discussed, your support would consist of providing approximately two feet of shelf space in your reference section, which would be used for making documents related to the NRC staff's environmental review of the license renewal application available to the public. We will place the Vernon Free Library on our distribution list for documents and notices related to the review of the Vermont Yankee application. After the application process is completed in approximately two years, you may dispose of these documents.

A paper copy of the application is being sent to you via priority mail. An electronic version will also be made available at the NRC's Public Electronic Reading Room, accessible through the NRC's home page at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation. If you have any questions, you can reach me by telephone at 301-415-1590 or via e-mail at [rle@nrc.gov](mailto:rle@nrc.gov).

Sincerely,
