(2) 10 CFR 71.95 Report Dated January 20, 2006

Dear Sir,

Global Nuclear Fuel, Americas – LLC (GNF-A) in Wilmington, NC hereby modifies the report that was submitted on 1/20/06. The reason for the modification is that on the same day (1/20/06), after submitting our report, we became aware of another incident of the same type of situation related to the same type of package (RAJ-II) sent to another customer. This package was packed during the same time period as the one initially reported and before 12/5/05 when GNF-A believes the corrective actions were fully implemented. Since the events are identical and the corrective actions are identical, GNF-A sees no useful purpose in submitting another complete report.

If you wish to contact me, please call me on (910) 675-5656.

Sincerely,

Global Nuclear Fuel – Americas, LLC
