Re: Renewal of License No. 06-00221-08
Docket No. 03003759
Control No. 137909
Follow-up to our phone conversation of January 31, 2006

This is in reference to our phone conversation of January 31, 2006. We discussed amending our license to a Type C Broad Scope license.

As we discussed, please amend our license and/or renewal application to specify a Type C Specific License of Broad Scope, as described in 10 CFR Part 33.11c.

Section 5. Radioactive Material

Please amend this section to specify the possession limits described in 10 CFR Part 33.11c and Part 33.100 Schedule A Column II.

Section 7. Individuals Responsible for Radiation Safety Program, and

Section 8. Training for Individuals Working in or Requesting Restricted Areas

Please amend these sections to specify the training and experience requirements described in 10 CFR Part 33.15b.

We hope that these changes adequately address your concerns. Please contact Michael Gay or Robin Charlton for matters relating to the license renewal.

Thank you for your consideration.
