MFN 06-035

Docket No. 52-010

January 28, 2006

U.S. Nuclear Regulatory Commission Document Control Desk Washington, D.C. 20555-0001

Subject: GE Presentation Regarding TRACG Application for ESBWR Stability - ACRS Thermal-Hydraulic Phenomena Subcommittee -January 19, 2006

Enclosure 1 contains the subject final presentation material regarding GE's proprietary Licensing Topical Report on TRACG application for ESBWR Stability. Enclosure 2 contains the non-proprietary version of the presentation material that was given at the open session of the subject ACRS Thermal-Hydraulic Subcommittee meeting.

GE considers a portion of the presentation material proprietary in accordance with 10 CFR 2.390. The proprietary pages are indicated by the words "GE Proprietary Information."

The affidavit contained in Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GE. GE hereby requests that the information of Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

If you have any questions about the information provided here, please let me know.
