Secretary
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001
ATTN: Rulemakings and Adjudications Staff

Your proposal to do basically nothing around reactor security in light of known credible terrorist threats to these facilities (and especially spent core cooling facilities) demonstrates you have no commitment to insuring public safety.

The NRC is failing in its mission. It should be restructured or replaced.

Respectfully,

Paxus Calta
