Bureau of International Security and Nonproliferation  
Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM03435), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium to Japan for use as reload fuel in the Higashidori Unit 1 nuclear power reactor. Assurances from Japan, that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian and Canadian origin, converted in Canada and the U.S., enriched in the EU and the U.S., and was reconverted in the U.S. It, thus, has Australian, Canadian, and EURATOM obligations.

Sincerely,
