NUCLEAR REGULATORY COMMISSION

10 CFR Parts 2, 19, 20, 30, 40, 50, 51, and 70

RIN: 3150-AG53

Revision of References to Section 202 of the Energy Reorganization Act

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

at 10 CFR Parts 1-199

SUMMARY: This final rule makes a number of conforming changes to the regulations that reference Section 202 of the Energy Reorganization Act. The final rule is necessary to remove the text of the footnotes that reference Section 202 in order to standardize all references in the regulations to read consistently as Section 202. This final rule also corrects a typographical error in Part 19, makes other minor administrative changes to conform Part 51 to other parts of this chapter, and reflects the abolishment of the Office for Analysis and Evaluation of

Operational Data;

EFFECTIVE DATE: (Insert date of publication in the Federal Register).

FOR FURTHER INFORMATION CONTACT: Alzonía W. Shepard, Rules and Directives Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Telephone: (301) 415-6864.

~~Needs discuss in this portion of the FRN the changes to parts 1, 19, and 19.~~

SUPPLEMENTARY INFORMATION:

at 10 CFR §§ 24, 30.4, 40.4, 50.2, 50.11, 70.4, and 70.11.

Background

There are multiple references to Section 202 of the Energy Reorganization Act of 1974, in the NRC rules and regulations. Some of these references cite Section 202, while others consist of references include a detailed description of Section 202 in a footnote. The references in the current regulations that contain a description of Section 202 are incomplete, because they do not present the latest revision to Section 202. Because the existing references are inconsistent and incompleteness of the in-citing the text of the footnotes that reference Section 202, and to avoid the necessity of repeatedly amending numerous regulations, the NRC believes it is necessary to change all the references to cite Section 202, rather than include the detailed text of Section 202 in a footnote.

The revision to Part 51 is necessary because: (1) Part 0 has been eliminated; and (2)

the categorical exclusion as it is currently codified implies that NRC would entertain a petition for rulemaking for Part 1.

SEE INSERT (on next page)

Because these amendments involve, either matters of agency organization or such notice and comment.

the NRC has determined that good cause exists to dispense with the notice and comment provisions of the Administrative Procedure Act 5 U.S.C. 553 (b) (A). The amendments are effective upon publication in the Federal Register. For these reasons, also good cause exists to dispense with the usual 30-day delay in the effective date because these amendments are of a minor and administrative nature that deal with the NRC's organization. Therefore,

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22 (c) (2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

NRC cannot legally refuse to consider PRM's for any of its regulations.

INSERT

The NRC is also making other minor conforming changes to its regulations: deletion of 10 CFR § 1.35, "Office for Analysis and Evaluation of Operational Data" in light of the abolishment of that office; correction of a typographical error in 10 CFR § 19.32. by substituting "Title VII" for "Title VI;" and deletion in 10 CFR § 51.22(c)(1) of the reference to Part 0 because of the repeal of that part.
