Subject: Update of ABB Combustion Engineering Nuclear
Power Signature Authorities

Reference: Letter, A.E. Scherer (C-E) to R.M. Bernero (NRC),
LD-91-008, dated February 7, 1991

Dear Mr. Bernero:

This letter is to inform you that Combustion Engineering has made a change to the Combustion Engineering, Inc. organization related to our nuclear fuel manufacturing activities. The appointment of Dr. R.S. Siudek as Vice President, Nuclear Fuels, was announced by Dr. S.T. Brewer on May 15, 1991. Dr. Siudek is replacing Mr. C.R. Waterman, who will be taking a new assignment in the ABB U.S. Power Plant Segment. Accordingly, we are providing you with an updated listing of management individuals who are authorized to make license commitments on behalf of ABB Combustion Engineering Nuclear Power.

To make this change and some minor updates to the information provided by the Reference in a manner we believe would be most efficient for your staff's use, we are providing an entire listing (Enclosure).
