Gentlemen:

This acknowledges receipt of your amendment application dated August 5, 1992 (RA-92-011), for consolidation of uranium operations at your Hematite facility. In our followup meeting with CE staff on September 10, 1992, we discussed the application, and we will continue to work with you as appropriate to expedite the review process.

We also want to expedite the license renewal review, because we want to identify all unresolved issues which may relate to consolidation. In your letter dated August 31, 1992, you indicated that you would respond to our comments transmitted on July 19, 1992, by September 30, 1992, and October 31, 1992.

Sincerely,
