SUBJECT: REQUEST FOR HEMATITE LOCAL PUBLIC DOCUMENT ROOM

This is in response to your memorandum to Jona L. Souder, dated August 10, 1992, requesting the establishment of a local public document room (LPDR) for the Combustion Engineering, Inc. facility in Hematite, MO.

The decision has been made to set up a LPDR for Docket No. 70-36. I was informed by Sean Soong that the LPDR should remain operational at least six months after the license is renewed. At that time we will reevaluate the need for this LPDR.

I have officially requested, in a memorandum dated August 20, 1992, that the Document Control Branch, IRM, provide us with copies of all publicly available documents for this docket. We should start receiving this material on a routine basis. However, we will need NMSS to provide us with copies of the pre-September 1992 documents that need to be placed into the LPDR.

We suggest that any of the documents that have not been processed through NUDOCS be put through the system.

For your information, I have attached a copy of the Federal Register Notice which states our intent to establish this LPDR. We anticipate that this notice will be published sometime next week.

If you have any questions, please feel free to contact me at 492-7454. I will continue to keep you and your staff informed of our progress.

NUCLEAR REGULATORY COMMISSION

Intent to establish a local public document room in the vicinity of Hematite, Missouri, for records pertaining to the Combustion Engineering, Inc. uranium fuel facility.

AGENCY: Nuclear Regulatory Commission

ACTION: Notice of intent to establish a local public document room in the vicinity of Hematite, Missouri, for records pertaining to the Combustion Engineering, Inc. uranium fuel facility.

SUMMARY: Notice is hereby given that the U. S. Nuclear Regulatory Commission (NRC) is intending to establish a local public document room (LPDR) in the vicinity of Hematite, Missouri, for records pertaining to the Combustion Engineering, Inc. uranium fuel facility.

DATE: Comment period expires October 9 , 1992. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments filed on or before this date.

ADDRESSES: Written comments may be submitted to Mr. David L. Meyer, Chief, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U. S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street, N.W., Washington, DC.

FOR FURTHER INFORMATION CONTACT: Ms. Jona L. Souder, LPDR Program Manager, Freedom of Information Act/Local Public Document Room Branch, Division of Freedom of Information and Publications Services, Office of Administration, U. S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone 301-492-4344 or Toll-Free 1-800-638-8081.

Among the factors the NRC will consider in selecting a location for the collection are:

- (1) Whether the institution is an established document repository with a history of impartially serving the public;
- (2) The physical facilities available, including shelf space, patron work space, and copying and micrographic equipment;
- (3) The willingness and ability of the library staff to maintain the LPDR collection and assist the public in locating records;
- (4) The public accessibility of the library, including parking, ground transportation, and hours of operation, particularly evening and weekend hours;

- (5) The accessibility of the library to the handicapped;
- (6) The proximity of the library to the Combustion Engineering, Inc. facility located in Hematite, Missouri;

Public comments are requested on libraries in the vicinity of the Hematite, Missouri, facility that might be considered for selection as the location for this NRC local public document room collection.

Dated at Bethesda, Maryland, this 3 day of September, 1992.

For the Nuclear Regulatory Commission,

Donnie H. Grimsley, Director
Division of Freedom of Information and
Publications Services
Office of Administration

Ms. Martha Dodson

Ex. 6

Dear Ms. Dodson:

This is in response to your letter dated June 28, 1992, (postmarked May 29, 1992), to Jona Souder, LPDR Program Manager, requesting that we establish a local public document room (LPDR) for the Combustion Engineering, Inc. (CE) facility located in Hematite, Missouri.

We contacted Mr. John Hickey, Fuel Cycle Safety Branch, Division of Industrial and Medical Nuclear Safety, Office of Nuclear Material Safety and Safeguards, and informed him that we had received a request to set up a LPDR for the CE facility. Mr. Hickey responded to us with a formal request to establish this LPDR.

This is to inform you that we have made the decision to set up a LPDR for the CE facility in Hematite, MO. Enclosed is a copy of the Federal Register Notice that will be published on Wednesday, September 9, 1992, stating our intent. There will be a thirty day comment period which will expire on October 9, 1992. Any libraries operated by nonprofit educational or governmental institutions interested in housing this document collection are invited to respond. I will be sending copies of this notice to libraries in the area of Hematite, MO. If you know of a library that would be interested in maintaining the document collection please encourage them to respond and address the rating factors.

If you have any questions concerning the NRC's local public document room program, please feel free to contact me or Jona Souder using our toll-free number 1-800-638-8081.
