MEMORANDUM TO: Those on the Attached List

FROM: Roy P. Zimmerman, Director */RA/ by Michael F. Weber for*
Office of Nuclear Security and Incident Response

SUBJECT: REQUEST FOR COMMENTS ON MANAGEMENT DIRECTIVE 8.2,
"NRC INCIDENT RESPONSE PROGRAM"

Enclosed for your review and comment is the draft Management Directive (MD) 8.2, "NRC Incident Response Program."

Your office previously concurred on the most recent version of MD 8.2 on September 19, 2005. The following is a synopsis of the enclosed revision. The changes in the Directive are limited to the inclusion of several additional definitions. Other sections of the Directive, including the Responsibilities Section were not changed from the current version.

The Handbook has been completely rewritten to be more descriptive. This rewrite does not revise or change existing program content. Hopefully this will aid your review. The programmatic aspects of the Incident Response Program have been described in greater detail to enhance understanding which is a departure from the previous bulleted format.

Your comments are requested by March 10, 2006. After addressing your comments, we plan to return this product to you for your concurrence the week of March 20th with the intention of meeting the March 31st deadline. We acknowledge the review and comment period are on a compressed time frame, and we are requesting your support in meeting this aggressive schedule. Please send your comments to Jason Kozal (301-415-1141), Nuclear Systems Engineer, Division of Preparedness and Response.

Enclosure:
Management Directive 8.2
