Seneca, SC 29672

SUBJECT: REACTOR AND SENIOR REACTOR OPERATOR INITIAL EXAMINATION
OCONEE NUCLEAR STATION - 05000269/2006301, 05000270/2006301 AND
05000287/2006301

Dear Mr. Hamilton:

In a meeting on February 15, 2006, between Mr. John R. Steely, Operations Initial Licensing Training Supervisor, and Mr. Mark A. Bates, Operations Engineer, arrangements were made for the administration of licensing examinations at Oconee Nuclear Station Units 1, 2, and 3. The operating test is scheduled for the weeks of June 19 and June 26, 2006. The written examination is scheduled to be administered the week of June 26, 2006. The on-site preparatory week is scheduled for the week of May 29, 2006.

As agreed during the meeting, the staff of the U.S. Nuclear Regulatory Commission (NRC) will prepare the written examinations and your staff will prepare the operating tests based on the guidelines in Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC regional office will discuss with your staff any changes that might be necessary before the examinations are administered. Your staff will be given the opportunity to review the written examinations during the week of May 8, 2006, and has also agreed to make all of the copies of the examination materials prior to administration.

To meet the above schedule, it will be necessary for your staff to furnish the operating test outlines by April 5, 2006. The operating tests, and the supporting reference materials identified in Attachment 2 of ES-201 will be due by May 8, 2006. Pursuant to 10 CFR 55.40(b)(3), an authorized representative of the facility licensee shall approve the outlines, examinations, and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready-to-use. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402, and to make the simulation facility available on the dates noted above. In accordance with ES-302, your staff should retain the original simulator performance data (e.g., system pressures, temperatures, and levels) generated during the dynamic operating tests until the examination results are final.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examinations and operating tests are being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (if any)(OMB approval number 3150-0090) at least 30 days before the first examination date. If the applications are not received at least 30 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 14 days before the first examination date.

This letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number Part 55 (3150-0018), which expires on June 30, 2006. The public reporting burden for this collection of information is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at BJS1@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0101), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Thank you for your cooperation in this matter. Mr. Steely has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Mark Bates at (404) 562-4612, (Internet E-mail: MAB7@NRC.GOV), or me at (404) 562-4647, (Internet E-mail: JHM2@NRC.GOV).

Sincerely,

/RA/

James H. Moorman, III, Chief
