Subject: <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	Information regarding Amendment Action 138182
Summary:	<p>The requested amendment authorized material uses were discussed with the licensee. They do not want a D&D or brokerage license, but rather simply want a license to allow packaging/shipping from temporary job sites. It was explained that we do not issue licenses for this lone activity because this activity is generally always allowed under the specific license for the site or facility. The licensee reported that they will reevaluate their needs and get back to the license reviewer within the next day or so regarding continued action on this amendment. The licensee was also requested to provide a list of sources that were transferred to the University of Georgia. This information will be required to remove the Virginia facility from the existing license regardless of the licensee's need to change the requested authorized uses.</p>
