

June 27, 2003

Mr. L. Edward Nanney, Director  
Division of Radiological Health  
Department of Environmental Conservation  
401 Church Street, L&C Annex, Third Floor  
Nashville, TN 37243-1532

Dear Mr. Nanney:

Enclosed is the exam for a member of your staff who attended the following course:

Transportation of Radioactive Materials Course (H-308)  
Chattanooga, Tennessee - April 28-May 2, 2003

The course examination results indicate that the individual did not meet the minimum standard for successful completion of the course, which is a grade of 70 percent. The NRC policy on successful completion of NRC training for Agreement States was sent to you by letter dated November 20, 1996 (SP-96-118). For your information, NRC does not consider its staff qualified until, at a minimum, the exams for required courses are successfully completed. Non-qualified NRC staff are not permitted to conduct independent inspections and license reviews in areas where they have not successfully completed the minimum training requirements.

One final re-examination may be given to a student for any given course. Any student who fails a re-examination must repeat the course to satisfy the training requirement.

The subject course can be successfully completed by attendance at a future course presentation and passing the examination. If you need additional information, please contact me at 301-415-2325 or Brenda Usilton at 301-415-2348.

Sincerely,

*/RA by Scott Flanders for/*

Josephine M. Piccone, Deputy Director  
Office of State and Tribal Programs

Enclosure:  
Course Exam
