JAMESTOWN FERRY

Near this site on February 26, 1925, the ferry *Captain John Smith* began the first automobile ferry service crossing the James River. Captain Albert F. Jester was the inaugurator and owner/operator until it was sold to the Commonwealth of Virginia in 1945. This ferry system provided an important link for the Maine-to-Florida traveler through Surry County to Jamestown Island, the site of the first permanent English settlement in America.
