Subject: A few more questions for PSEG

Hello Randy:

Some additional candidate questions for PSEG.

1. To what extent does a SCWE exist at Salem/Hope Creek?
2. Has management fully assessed and addressed the negative impact of disagreements about past operational decision-making on station personnel?
Whether yes or no, please explain your response, including citing specific incidents that created the negative impact.
3. What "messages" have the staffs at Salem/Hope Creek taken from various events over the past few years?
4. What situations have significantly detracted from maintenance of a strong SCWE ?
5. What is the current impact of previous unresolved conflict?
6. What steps are being taken to assure the staffs at Salem/HC are willing to participate?
7. The Synergy survey results indicate a large difference in perception about conditions at Salem/Hope Creek between the CNO and staff and the rest of the work force. What steps are planned to share the "secret" of how good things are at Salem/Hope Creek with the work force, since apparently, they aren't aware of it?

Thanks,
Dave Lochbaum
