Subject: Re: more Qs for the Q list?

I was planning to attend the meeting and can say a few words about the PIR inspection results if asked. Basically, the PIR inspections have been consistent with our other inspection results in that problems in the areas of corrective actions were identified. The PIR inspections supported the substantive cross-cutting issue in the area of corrective actions.

1. What is the commission's policy on SCWE? how is the staff supposed to evaluate SCWE? How does your approach on S/HC comport with Commission policy? Why didn't you do a "SCWE inspection?"
2. i understand you have team inspections of PIR - - what have these team inspections found at S/HC? (if ray is coming we would likely say a couple words and then have ray amplify if he wishes)
