Subject: Re: Contacts Re: PSEG

1. Mike Callahan, formerly of NRC/OCA, called me, said he's consulting part-time for some companies' Washington offices, including PSEG. But he said he was calling on his own, not at anyone's request. He asked a few questions about next steps, and i answered, staying within info we have said publicly. Mike seemed to have a good perspective on the SCWE review.

2. Hub talked to Bakken, and Bakken wants to drop in next thursday (he will be out of the country for several days after that)- we thought of doing this meeting at the site but it's not convenient - - will need to be careful not to give any regulatory feedback during the drop-in. **Hub and I are also looking at possibly visiting the site for a day the following week.**

3. Bakken also said that he plans to meet with Dave Lochbaum sometime soon.

4. Hub is pushing PSEG to arrange their schedules to meet with us sooner the week of June 21, which is their current suggestion.

5. i signed the letter to PSEG updating our review status. I chose not to interrupt PSEG Sr mgrs from their caucus (on SCWE action planning) to tell them of this relatively "routine" letter; but Bakken's staff asst has it and will get it to them early tomorrow.

6. Dr. Harvin called to find out the meeting date - - when i called back she was busy so it was a very brief call - - i rather expect to hear from her again soon.

I appreciate everyone's ongoing efforts Re: NRC oversight of Salem/Hope Creek.
