<p>Summary:</p> <p>2/23/2006 I left a message on Dr. Tai's voice-mail for him to get back in touch with me concerning the disposition of the gas chromatograph. The sixty days had expired and I needed to know whether to renew the license.</p> <p>08:00 2/28/2006 Dr. Tai left a message on my voice-mail about the disposition of the sealed source. He stated that the device with the sealed source had been transferred to Thermo Electron on January 23, 2006 and received by Thermo Electron on January 26, 2006. Dr. Tai indicated that a representative of Thermo Electron informed him that the source was still in the process of being disposed. The representative stated that a letter would be sent to the licensee about the disposal of the source once the disposal of the device was completed.</p> <p>09:30 2/28/2006 I spoke with Carlton Lorfing, Radiation Safety Officer of Thermo Finnegan (512-251-1400). Mr. Lorfing confirmed that they are in possession of the AID detector cell from First Environment. I thanked him for the information.</p>
