Randy, note Bill's request which line up with our previous and proposed communication plan(s) for historical items and the upcoming Disposition of OI Findings. Perhaps a confence call with Bill O. and other internal stakeholders to review the historical context and next steps get would be useful. Your thoughts ? Sam

Heads-up on this one.....we can discuss next week. Note that we would not agree with all of the characterization of Dr. Harvin's influence, substantiation of concerns etc. Sam
