SUBJECT: PUBLIC MEETING SUMMARY (LICENSEE PERFORMANCE REVIEW)
HONEYWELL SPECIALITY CHEMICALS, DOCKET NUMBER 40-3392

Dear Mr. Edwards:

This letter refers to the public meeting at the Metropolis Community Center in Metropolis, IL on February 22, 2006, during which we discussed the NRC evaluation of your performance in the following major areas: safety operations, radiological controls, facility support, and licensing activities for the period from November 20, 2004 to December 9, 2005. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your self assessment and your perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your plans to address those areas identified as needing improvement.

The names of participating attendees at the meeting and a copy of the presentation used by Honeywell are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at 404-562-4731.

Sincerely,

/RA/

Jay L. Henson, Chief
Fuel Facility Inspection Branch 2
Division of Fuel Facility Inspection
