**Assigned to: DRP, DRS, DNMS, SAC Branch:**

**Referral to Licensee: \_\_\_\_\_ Referral Criteria Reviewed: \_\_\_\_\_**

**OI involvement? OI Case Number:**

**ARB Recommended Priority: \_\_\_\_\_**

**Allegation Summary: *The allegations were that the licensee was negligent and derelict in its licensed responsibilities including: (1) failed to follow procedures for handling of yellowcake, (2) the failure resulted in health problems for the alleger; (3) exposure records for some employees were swüched; (4) mill site was used for disposal of debris and material; and (5) conducted site cleanup when notified NRC was coming. DNMS conducted an inspection and no violations of requirements were identified. The OI investigation did not substantiate the allegations that were provided during an interview with the alleger. OE has reviewed the report and concluded that enforcement action is not appropriate.***
