Louis, confirming based on this mornings call with Chris Bakken that PSEG will now plan a visit to NRC HQ to include the EDO and Commissioners. Ellis, I have confirmed the info. from this mornings call re Dr. Harvin, ie, we have the tapes and they have been transcribed / enhanced to support OI review. She started employment as a contractor and was handled as a PSEG employee for termination resulting from a "reorgannization". The tape recording occured during a 2 day period in March immediately prior to her departure from the site and contains direct conversations, no phone tapes. Sam
