

The Leadership Library

We're just numbers.

Over 20 years,
the way it is.

That's

If you're not
safe, you
risking things
that are not, askable

- Low dose record outage UTEOC-20
- Monitor EDs
- Effectively plan and execute
- Maintain awareness of work area dose rates
- Utilize technology
- Improve process by using operating experience

C-84

Contract up in
2005. That's when
they've
come after
us.

As my company
did that to you

If I went into
next they would
force me to
make dec that
were wrong or I have
to quit.

Low dose
record outage
U1EOG-20

- Monitor EDs
- Effectively plan and execute
- Maintain awareness of work area dose rates
- Utilize technology
- Improve process by using operating experience

watching over the
years that's
what happened.

Low dose
record outage
U1E0C-20

- Monitor EDs
- Effectively plan and execute
- Maintain awareness of work area dose rates
- Utilize technology
- Improve process by using operating experience

Just of moving the plant
plant is safest when it's
stable + all equip
available -

it is possible
to build a
strong case
around
the answers
we want

Operators
have to act
vs observe.
Complexity.

vs
write down
risks + rewards
+
decide from there.

stronger
production

add clarity
+ conservatism

bypassing Ops
Mgr + AOM,

Dir of
Ops gave
SMgr
orders.

Phil 305 246

Turkey Point

I have 3 Pos on
Shift, who
shouldn't be there.

Beigh (MON) Carlin Schumann
Boyle Waidinger Webster
~~I do not have a NUC safety
concern.~~

~~That concerned that Tim~~
will help me make the right
decision.

These are the players.
Nobody else is part of the equation

Left to
R. Edwin Selt Selover
Sr VP + G Counsel

Hot Spots
in NRB presentation

not a spirit of candor +
openness — it's
hide as much as we can
get away with

Carlton - follower
not a leader -

Gauchau's forte

Tim more forthcoming
but gets caught up in it
sometimes

discussed w/ MS

Mark S. is not engaged

Maint perf reflects that - when
he gets engaged perf ↑

Sch - not engaged
enough to care

Wag - not to upper
mgt

tell it like it is to
others - not VPs / H

Gurchar worst his no

Wald - afraid VPs + Harry

I said JC was a non player + H
wasn't demanding that he make the
kind of diff he was brought
here to make.

TO - strongest most C
but peo didn't scio which TO
they were going to get.
"The Devil" as he would call
himself (and laugh) or the
wise/coach/teacher.

Almost always ↖
I had a pheno rel w/ him

after that mtg,

Stopped 1:1s. HK too busy.

Kevin Dawson
Chack of eng
DG + HK

At the highest levels we have
tolerated ineffective p.
which reflects our INPO 3
perf.

In May 2002 I told HK
in my ed view he did not have
a SR p. team to get us to
excellence.

DG - phony &
untrustworthy. Peo called him used
car salesman.

I was integrally involved in WANO eval. I won trust & respect of team leaders + industry executive Fred D. Cimo.

I intend to find a way to get

My area was given an Inpo strength for first time in history of site. I believe because I told the truth, clearly stated cultural initiatives and knew what I was talking about. Fred said

I want to know HK says I want an inpo

Ask to be industry resource. Harvey Cybil.

Unal to HK - no response

In Feb 2003 Duke Energy eval of Eys (at 3 inpo 1 plants)
