Marc,

I got side tracked by Hub this afternoon. He asked about your scwe update e-mail. He is concerned that PSEG executives may have had the IAT results for better than a week or so. He is curious about when the results were rolled out to the staff, how much, what vehicle was used, all hands e-mail, all hands meetings, Of course he will have several other questions and I believe you have Dan Holody's. I suggested to Hub that it would be best if you call Hub directly. Hub is looking forward to your call.

Thanks

Dan
