Subject: Fwd: NRC disses one whistleblower, silences the rest

UCS reaction.

We have an extensive commplan that includes PAO notes to respond to question about this.
the risk is that NRC will be wrongfully painted as not supporting whistle-blowers.
Our comm -plan anticipated this challenge - - we will look to PAO for advice on whether to adjust our
approach, perhaps with letters to editors or a press statement, as this unfolds.
thanks.
randy
