Subject: NRC Office of Investigation Report No. 2-2005-004

Dear Mr. Host:

The NRC Office of Investigations (OI) initiated an investigation (OI Case No. 2-2005-004) on January 14, 2005, to determine if a violation of NRC requirements occurred in June 2004, when WVHCS suspended the medical privileges of a department director for raising safety concerns regarding the gamma stereotatic radiosurgery device (GSR).

During the investigation, OI verified that the department director raised safety concerns regarding the GSR to WVHCS senior management. Based on the evidence developed during this investigation, OI did not substantiate that WVHCS management discriminated against the department director for raising safety concerns. We plan no further action regarding this matter.

Please note that final NRC documents, such as the OI report described above, may be made available to the public under the Freedom of Information Act (FOIA) subject to redaction of information appropriate under the FOIA. Requests under the FOIA should be made in accordance with 10 CFR 9.23, Requests for Records, a copy of which is enclosed for your information.

Also, in accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if any, will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
