Combustion Engineering, Inc.  
ATTN: Mr. H. V. Lichtenberger  
Vice President  
Manufacturing  
Nuclear Power Systems  
Windsor, CT 06095

Gentlemen:

This refers to the routine safeguards inspection conducted by J. P. Patterson of this office and D. J. Holody of Region I on December 1-5, 1980, of activities at the Combustion Engineering, Hematite Plant authorized by NRC License No. SNM-33 and Title 10, Code of Federal Regulations, Part 70 and to the discussion of our findings with Mr. J. A. Rode, Plant Manager and members of his staff at the conclusion of the inspection. Mr. J. Blaylock of the NRC's, Division of Safeguards and Radiological Safety Inspection, Office of Inspection and Enforcement, accompanied the regional inspectors on this inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

Areas examined during the inspection concern a subject matter which is exempt from disclosure according to Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Consequently, our report of this inspection will not be placed in the Public Document Room.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

Information in this record was deleted  
in accordance with the Freedom of Information  
Act, exemptions 4  
FOIA-2004-0234
