Re: NRC License #47-01458-01; request for amendment

Please add the following physician as an authorized user on our license:

Add Lois Mastrofrancesco, M.D., as a user of Iridium-192 for uses in a High Dose Rate Remote Afterloader unit.

She received her board certification in Radiation Oncology on May 26, 1988, and was recently an authorized user of a high dose rate remote afterloader on NRC License #47-23066-02. I have enclosed a note from the Radiation Safety Officer at the facility that describes her authorization there.

Please expedite this matter, as our current authorized user has been called to jury duty and may have to be absent at a time when HDR procedures are scheduled during the week of March 20, 2006. 

If you have any questions or require additional information, contact our Radiation Safety Officer, James Israel, at (304) 624-2574.

Thank you.

Sincerely,

Michael Tillman
