

MEMORANDUM

To: File 1-2004-002

From: Jeff Teator, OI:RI *MT*

Subject: Telcon with Tom LAKE

Date: 8/5/04

On 8/5/04 LAKE returned the reporting agent's telephone call regarding the ECP review he performed on the September 21, 2002 [redacted] steam leak issue at Salem Unit 2. LAKE was asked to read his interview notes of the interviews he conducted of Bob CORDREY, Rick PFEFFER, AL POLONCZYK aka "ALPO," and Greg BOKASH. LAKE provided the following information:

Bob CORDREY: the third line from the bottom of page 1 reads that CORDREY told LAKE that, "Impression is that crew knew! [redacted] was going to close the valve] LAKE said that he is positive that CORDREY said that, and, when asked how positive he was of that, said, "positive enough that I wrote it down." LAKE said he interviewed CORDREY on either October 10<sup>th</sup> or 15<sup>th</sup>, 2003.

Rick PFEFFER: on page 2 of the notes, the first line of the third asterisk reads that PFEFFER told LAKE that, "OS knew, but rest of org[anization] didn't. LAKE said that he "wrote it [the notes] as he heard it." [from PFEFFER]

AL POLONCZYK - "ALPO": on page 1 of the notes, bullet 3 reads that "ALPO" told LAKE that, [redacted] made the call [to close the valve] along w/[ith] other supervisors." Bullet 4 reads that "ALPO" told LAKE that "Minutes after saying unsafe it became safe." [to close the valve]

LAKE added that he performed the ECP review at Carl FRICKER's request. To do that he first got the list of names from FRICKER of the employees who were upset with what [redacted] had done. He interviewed them to provide FRICKER with, "where their hearts and minds were" on what happened. He was not instructed by FRICKER or anyone else to further investigate what he was told by the employees, nor was he instructed to validate or corroborate that what he was told was the truth. LAKE said that he interviewed individuals whose names were on the list, but also interviewed others who approached him while he was in the plant, and/or took information left him on his voice mail.
