SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2005-013)

Dear Mr. Levine:

This refers to an investigation conducted by the NRC Office of Investigations (OI) regarding activities at the Palo Verde Nuclear Generating Station. OI initiated the investigation to determine whether Palo Verde Nuclear Generating Station deliberately provided inaccurate information to the NRC regarding Condition Report/Disposition Request (CRDR) 2782009.

Based on the evidence developed during the investigation, the allegation that PVNGS deliberately provided inaccurate information to the NRC regarding CRDR 2782009 was not substantiated. The NRC plans no further action related to this case and considers this investigation closed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA TPruett for/
