Dear Mr. Mottlow:

Enclosed is Amendment No. 16 to your NRC Material License No. 48-18672-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font.

As discussed in our telephone conversation of February 17, 2006, the new location of use was added to your license. The Broadmoor Street location of use cannot be removed from your license at this time because radioactive material is still on site.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

Sincerely,

A handwritten signature in cursive script that reads "Toye L. Simmons".
