Audit Report

Audit of the Nuclear Regulatory Commission's FY 2002 Financial Statements (OIG-03-A-04)

Status of Recommendations

<u>Recommendation 3:</u>	The CFO should implement policy and procedures to independently determine project status for software capitalization purposes. Use of a project tracking mechanism or regular access to project status reports would enhance the awareness of projects and enable OCFO to improve monitoring activities. This process would enable OCFO to compare those activities to the time and cost being capitalized in the agency's records.
OIG Analysis:	In correspondence dated December 8, 2004, OIG indicated that this recommendation would be closed upon issuance of Management Directive 4.1. The agency issued Management Directive 4.1 in September 2005. Accordingly, this recommendation is closed.
Status:	Closed.
