## Amendment Request – NRC License No. 37-09995-01

Dear Sir/Madam:

We want to add John S. Matthews, M.D. to our license as an authorized user in categories 35.100, 35.200, and 35.300. Dr. Matthews was an authorized user in these categories, as well as the Radiation Safety Officer, approximately 18 months ago at St. Agnes Hospital (NRC license number 37-13651-01), Philadelphia, PA.

In addition, we wish to inform you that on June 16, 2005 we disposed of all our Cs-137 brachytherapy sources through Radiac Research Corporation, Brooklyn, NY. The total activity was 316mCi (122.6mg Ra equivalent). We do not want 35.400 to be deleted from our license, however. In the near future we hope to initiate prostate seed implants using I-125 sources. Specifically, we plan to use Bard Brachytherapy, Inc. Model 1251 sources.

If you require additional information please contact me at your earliest convenience.

Sincerely,

Christine Fitzpatrick  
Chief Operating Officer
