Dear Sir or Madame,

03002960

We wish to amend our NRC byproduct material license (37-00485-04) to include our Radiation Safety Officer, Walter L. Robinson, M.S., D.A.B.S.N.M., D.A.B.R., D.A.B.M.P., as authorized to meet the physical presence requirements for HDR treatments in lieu of the AMP.

Walter Robinson has received Varian-specific emergency procedures training from Rene Smith, Ph.D. in July 2005. Dr. Smith is an AMP on our license. Mr. Robinson has also received Nucletronics-specific training on their HDR unit. He is aware of the responsibilities associated with the "physical presence" requirement fulfillment. Only in the rare instance that our two AMPs are not present, would Mr. Robinson take their place. For all HDR treatments we will have a AU, radiation oncologist, and AMP or RSO-specifically Walter Robinson present. Mr. Robinson will get refresher training in the emergency procedures annually from an AMP.

Sincerely,

Carl Seidl  
Vice President
