Re: NRC License No. 37-00896-03

Gentlemen:

This is a request to amend our license to include Gadolinium-153 sealed source. Although we may already have this on our license, the amount possessed at any given time needs increased due to a new camera that will be in use. I believe that increasing the amount to 100 mCi is sufficient. The manufacturer that UPMC McKeesport will be obtaining the isotope from is:

Isotope Products Laboratory (IPL)
An Eckert & Ziegler Company
24937 Tibbitts Avenue
Valencia, CA 91355

Phone: 661-309-1010
Fax: 661-257-8303

The model number for this product is – MMS07-153-100u.

Should you need further information, please feel free to contact our RSO, Nicholas Smarra (412-664-2711).

Sincerely,

Ronald H. Ott
President
