Subject: Safety/Accident analysis for Ross Road in Converse County, WY

Mr. Carpenter,

Thank you with speaking with me this morning.

I was calling to inquire about available safety/accident data and analyses for Ross Road (County Road 31, I believe) in Converse County, WY. Ross Road begins/ends at the junction of State roads 93 and 95, located northwest of Douglas. In our conversation, you indicated that information may be available for the period of 2000 to 2005. If available, that information would be most helpful.

The data and analyses would be used as part of an environmental assessment that the NRC staff is performing of a request by an NRC licensed facility to expand its operational area. This facility is located along Ross Road in Converse County, and as part of the proposed expansion of its operations, additional traffic would be added to Ross Road.

I appreciate your office's assistance in this matter. If you have any questions or need to contact me, I can be reached via the contact information provided below.
