License No. 29-00170-08

030 36894

To Whom It May Concern:

The current license stipulates that Lucent Technologies is permitted to possess sealed Co-60 sources of the AECL Model C-198 form. We wish to replace the current, older Nordion unit, a Gammacell 220, with a refurbished Gammacell 220. While the currently available source remains a C-198 form, it is currently listed as a Nordion C-198 instead of an AECL C-198. Lucent Technologies wishes to amend the current license to permit the acquisition of the new source. Nordion will remove the current cell in the exchange. All other license conditions remain the same.

If you require additional information regarding this amendment, please contact me at (908) 582-5907.

Sincerely,

Richard Quick  
Senior Manager – Radiation Safety Officer
