Subject: Highland Mine - Docket 40-8102

Mr. Boner,

ExxonMobil has initiated access discussions with the Boner Bros. Partnership through our environmental consultant MFG, Inc. We are in receipt of your proposed access demands and are in the process of reviewing. When I have management approval, I will be sending you our response to your proposal.

Sincerely,

Dan E. Burnham

Re:ExxonMobil Highland license, Docket 40-8102

Mr Fliegel:

I represent Boner Bros. Partnership which owns property bordering Exxon's Highland uranium mine. We have been verbally notified by Exxon's agent, Lou Miller of MFG, Inc., that a plume from Exxon's tailings pond has potentially impacted our property in Section 27, Tn 36N, Rg 72W, in Converse Co. Wyoming. Boner Bros. had requested that Exxon negotiate an MOU with Boner Bros. regarding pre-access agreement conditions prior to the meeting scheduled March 15, 2005. To date we have not been contacted by Exxon.

The purpose of this letter is two fold. First is to reiterate that Boner Bros. is strongly opposed to the termination of Exxon's license, or any action to lessen Exxon's reclamation requirements, at this point in time. Secondly, Boner Bros. respectfully requests that the bonding requirements of this license be reviewed to determine if the coverage is sufficient to provide for costs associated with assessment and restoration this potential plume.

Sincerely,

Rob Boner (Partner)
Boner Bros. Partnership
