**Subject:** Response to NRC Regulatory Issue Summary 2003-14  
"Preparation and Scheduling of Operator Licensing Examinations"

**Reference:** NRC Regulatory Issue Summary (RIS) 2003-14, "Preparation and Scheduling of Operator Licensing Examinations," dated August 27, 2003.

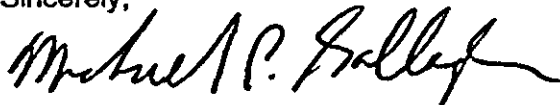

In the Reference letter, the NRC requested licensees to voluntarily submit a response concerning initial operator licensing examination needs, including an estimate of the number of applicants to be examined and intentions regarding the preparation of the examinations.

Attachments 1 through 10 provide the responses to RIS 2003-14 for the Exelon Generation Company, LLC (Exelon) and AmerGen Energy Company, LLC (AmerGen) plants identified above. The operator licensing examination information for each facility is provided on a separate NRC Form 536.

During Calendar Year CY 2005, a total of 6 candidates are expected to take the dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated in Attachment 6. The schedule for the indicated exam is as follows: the written exam and part of the operating exam will be given at Limerick Generating Station (LGS); the remainder of the operating exam will be completed at Peach Bottom Atomic Power Station (PBAPS). Since the LSRO exam is a dual site exam that involves both LGS and PBAPS, rather than repeating the same information on both attachments, the exam scheduling information is provided on Attachment 6 for LGS only and Attachment 8 for PBAPS references Attachment 6.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

Michael P. Gallagher  
Director, Licensing & Regulatory Affairs  
Exelon Generation Company, LLC  
AmerGen Energy Company, LLC

UNITED STATES  
**NUCLEAR REGULATORY COMMISSION**

REGION III  
801 WARRENVILLE ROAD  
LISLE, ILLINOIS 60532-4351

March 4, 2004

Mr. Christopher M. Crane  
President and Chief Nuclear Officer  
Exelon Nuclear  
Exelon Generation Company, LLC  
4300 Winfield Road  
Warrenville, IL 60555

**SUBJECT: DRESDEN NUCLEAR POWER STATION  
CONFIRMATION OF INITIAL OPERATOR LICENSE EXAMINATIONS**

Dear Mr. Crane:

In a letter dated September 26, 2003, your staff responded to NRC Regulatory Issue Summary (RIS) 2003-14, "Preparation and Scheduling of Operator Licensing Examinations," for all Exelon Nuclear Stations. This letter responds to the request for initial license examinations at Dresden Nuclear Power Station, Units 1 and 2.

Initial license examinations were requested during the week of August 16, 2004, during the week of August 22, 2005, and during the week of August 21, 2006. The initial license examination scheduled for August 16, 2004, has been scheduled and a chief examiner assigned to the examination. Because of a heavy work load, the examination requested for August 2005 was rescheduled to the week of September 19, 2005, per a telephone conversation between Mr. M. Carey, Dresden Station Operations Training Manager, and Mr. D. McNeil of my staff. That examination has been scheduled and a chief examiner assigned to that examination. The examination requested for August 2006 will be scheduled as we approach that date.

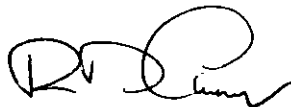

*On-site validation of the examinations will occur at Dresden Nuclear Power Station approximately 3 weeks before the examination administration date. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examinations at a mutually acceptable date.*

As indicated in your RIS response letter, your staff will develop the examination. Your letter also indicated that you are training less than 10 candidates for each of the examinations. Please inform us if the number of candidates rises above 10 as this will impact the examination schedule.

A supplementary letter will be sent to the training department approximately 120 days prior to the initial examination informing them of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination dates, and reconfirm the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mr. C. Phillips of my staff at 630-829-9739.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Roger D. Lanksbury, Chief  
Operations Branch  
Division of Reactor Safety

Subject: Response to NRC Regulatory Issue Summary 2004-10  
"Preparation and Scheduling of Operator Licensing Examinations"

Reference: NRC Regulatory Issue Summary (RIS) 2004-10, "Preparation and Scheduling of Operator Licensing Examinations," dated June 14, 2004.

In the Reference letter, the NRC requested licensees to voluntarily submit a response concerning initial operator licensing examination needs, including an estimate of the number of applicants to be examined and intentions regarding the preparation of the examinations.

Attachments 1 through 10 provide the responses to RIS 2004-10 for the Exelon Generation Company, LLC (Exelon) and AmerGen Energy Company, LLC (AmerGen) plants identified above. The operator licensing examination information for each facility is provided on a separate NRC Form 536.

During Calendar Years (CYs) 2005 and 2008, a total of 6 candidates per year are expected to take the dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated in Attachment 6. The schedule for the indicated exam is as follows: the written exam and part of the operating exam will be given at Limerick Generating Station (LGS); the remainder of the operating exam will be completed at Peach Bottom Atomic Power Station (PBAPS). Since the LSRO exam is a dual site exam that involves both LGS and PBAPS, rather than repeating the same information on both attachments, the exam scheduling information is provided on Attachment 6 for LGS only and Attachment 8 for PBAPS references Attachment 6.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

Michael P. Gallagher  
Director, Licensing & Regulatory Affairs  
Exelon Generation Company, LLC  
AmerGen Energy Company, LLC

Dresden Nuclear Power Station, Units 2 and 3  
Facility Operating License Nos. DPR-19 and DPR-25  
NRC Docket Nos. 50-237 and 50-249

Subject: Revised Response to NRC Regulatory Issue Summary 2004-10  
"Preparation and Scheduling of Operator Licensing Examinations"

Reference: 1. NRC Regulatory Issue Summary (RIS) 2004-10, "Preparation and  
Scheduling of Operator Licensing Examinations," dated June 14, 2004.  
2. Exelon/AmerGen Response to RIS 2004-10 dated July 14, 2004

In Reference 1, the NRC requested licensees to voluntarily submit a response concerning initial operator licensing examination needs, including an estimate of the number of applicants to be examined and intentions regarding the preparation of the examinations. In Reference 2, Exelon Generation Company, LLC (Exelon) and AmerGen Energy Company, LLC (AmerGen) provided the operator licensing examination information for each Exelon and AmerGen facility on a separate NRC Form 536.

The attachment to this letter provides a revised response to RIS 2004-10 for Dresden Nuclear Power Station. The revised response is requesting a change in the date for the Calendar Year 2005 and 2006 NRC Initial Operator Licensing Examination schedule. Dresden is requesting the Examination currently scheduled during the week of September 19, 2005, be moved to the week of February 6, 2006. The revised Initial Operator Licensing Examination information is provided on the attached NRC Form 536.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

Michael P. Gallagher, Director

Mr. Christopher M. Crane  
President and Chief Nuclear Officer  
Exelon Nuclear  
Exelon Generation Company, LLC  
4300 Winfield Road  
Warrenville, IL 60555

**SUBJECT: DRESDEN NUCLEAR POWER STATION - CONFIRMATION OF INITIAL  
OPERATOR LICENSE EXAMINATION**

Dear Mr. Crane:

In a letter (RS-04-150) dated October 1, 2004, which revised the letter (RS-04-093) dated July 14, 2004, your staff requested that the U. S. Nuclear Regulatory Commission reschedule an initial license operator examination from the week of September 19, 2005, to the week of February 6, 2006. Therefore, we have tentatively rescheduled the examination to occur during the week of February 6, 2006. On-site validation of the examination is tentatively scheduled to occur at the station during the week of January 9, 2006. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

As stated in your letter of October 1, 2004, your staff will develop the examination. Your letter indicated that you are training approximately six candidates for the examination. Please inform us at your earliest opportunity if you discover you need to change the scheduled date for the examination.

A supplementary letter will be sent to the training department approximately 120 days prior to the initial examination informing them of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination dates, and reconfirm the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mr. Charles Phillips of my staff at (630) 829-9739.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and

Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Dresden Nuclear Power Station, Units 2 and 3  
Renewed Facility Operating License Nos. DPR-19 and DPR-25  
NRC Docket Nos. 50-237 and 50-249

Subject: Revised Dresden Nuclear Power Station Response to NRC Regulatory Issue Summary 2004-10, "Preparation and Scheduling of Operator Licensing Examinations"

- References: (1) NRC Regulatory Issue Summary (RIS) 2004-10, "Preparation and Scheduling of Operator Licensing Examinations," dated June 14, 2004
- (2) Exelon/AmerGen Response to RIS 2004-10 dated July 14, 2004
- (3) Revised Response to NRC Regulatory Issue Summary 2004-10 "Preparation and Scheduling of Operator Licensing Examinations" dated October 1, 2004

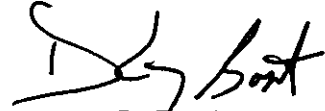

In Reference 1, the NRC requested licensees to voluntarily submit a response concerning initial operator licensing examination needs, including an estimate of the number of applicants to be examined and intentions regarding the preparation of the examinations. References 2 and 3 provided the responses to RIS 2004-10 for Exelon Generation Company, LLC (EGC) and AmerGen Energy Company, LLC (AmerGen) plants. Attachment 4 of Reference 2 provided the operator licensing examination information for Dresden Nuclear Power Station (DNPS) on NRC Form 536.

The current DNPS operator licensing class was expanded to include an additional Senior Reactor Operator candidate; therefore, the candidate is being added to the 2006 NRC Initial Operator Licensing Examination schedule. The Attachment to this letter provides a revised DNPS NRC Form 536 reflecting the revised operator licensing examination data.

MAY 27 2005

Should you have any questions related to this matter, please contact Mr. Mark Otten,  
Initial License Training Group Lead, at 815-416-2170.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Bost", written over the printed name.

Danny G. Bost  
Site Vice President  
Dresden Nuclear Power Station

Attachment: Revised DNPS NRC Form 536

**OPERATOR LICENSING  
EXAMINATION DATA**

Estimated burden per response to comply with this voluntary information collection request: 1 hour. This information collection is used to plan budgets and resources for operator examinations. Send comments regarding burden estimate to the Records Management Branch (T-6 E6), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to [infocollecta@nrc.gov](mailto:infocollecta@nrc.gov), and to the Desk Officer, Office of Information and Regulatory Affairs, NEOS-10202, (3150-0131), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

Subject: Response to NRC Regulatory Issue Summary 2005-19  
"Preparation and Scheduling of Operator Licensing Examinations"

Reference: NRC Regulatory Issue Summary (RIS) 2005-19, "Preparation and Scheduling of Operator Licensing Examinations," dated August 24, 2005.

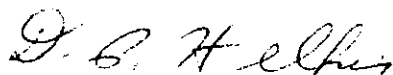

In the Reference letter, the NRC requested licensees to voluntarily submit a response concerning initial operator licensing examination needs, including an estimate of the number of applicants to be examined and intentions regarding the preparation of the examinations.

Attachments 1 through 10 provide the responses to RIS 2005-19 for the Exelon Generation Company, LLC (Exelon) and AmerGen Energy Company, LLC (AmerGen) plants identified above. The operator licensing examination information for each facility is provided on a separate NRC Form 536.

During Calendar Year (CY) 2007, a total of 6 candidates are expected to take the dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated in Attachment 6. The schedule for the indicated exam is as follows: the written exam and part of the operating exam will be given at Limerick Generating Station (LGS); the remainder of the operating exam will be completed at Peach Bottom Atomic Power Station (PBAPS). Since the LSRO exam is a dual site exam that involves both LGS and PBAPS, rather than repeating the same information on both attachments, the exam scheduling information is provided on Attachment 6 for LGS only and Attachment 8 for PBAPS references Attachment 6.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

David P. Helker  
Manager, Licensing & Regulatory Affairs  
Exelon Generation Company, LLC  
AmerGen Energy Company, LLC

NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

October 14, 2005

Mr. Christopher M. Crane  
President and Chief Nuclear Officer  
Exelon Nuclear  
Exelon Generation Company, LLC  
4300 Winfield Road  
Warrenville, IL 60555

Dear C. Crane:

In a telephone conversation on September 21, 2005, between Mr. Chuck Phillips and Mr. Chuck Kolotka, arrangements were made for the administration of licensing examinations at the Dresden Nuclear Power Station the weeks of February 6 and 13, 2006. In addition, the NRC will make an examination validation visit to your facility the week of January 9, 2006.

As agreed during the telephone conversation, your staff will prepare the examinations based on the guidelines in Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC regional office will discuss with your staff any changes that might be necessary before the examinations are administered.

To meet the above schedule, it was necessary for your staff to furnish the examination outlines which we received on September 29, 2005. The written examinations, operating tests, and the supporting reference materials identified in Attachment 2 to ES-201 will be due by December 19, 2005. Pursuant to 10 CFR 55.40(b)(3), of the Code of Federal Regulations (10 CFR 55.40(b)(3)), an authorized representative of the facility licensee shall approve the outlines, examinations, and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready to use. We request that any personal, proprietary, sensitive unclassified, or safeguards information in your response be contained in a separate enclosure and appropriately marked. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402, and to make the simulation facility available on the dates noted above. In accordance with ES-302, your staff should retain the original simulator performance data (e.g., system pressures, temperatures, and levels) generated during the dynamic operating tests until the examination results are final.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examinations and operating tests are being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (if any) (OMB approval number 3150-0090) at least 30 days before the first examination date. If the applications are not received at least 30 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 14 days before the first examination date.

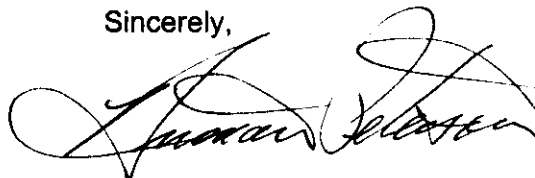

This letter contains information collections that are subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on June 30, 2006. The public reporting burden for this collection is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or by Internet electronic mail at [BJS1@nrc.gov](mailto:BJS1@nrc.gov); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, D.C. 20503-0001.

The NRC may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Thank you for your cooperation in this matter. Mr. Kolotka has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Chuck Phillips at 630-829-9739, or me at 630-829-9707.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the Publicly Available Records (PARS) component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read 'Hironori Peterson', written over a horizontal line.

Renewed Facility Operating License Nos. DPR-19 and DPR-25  
NRC Docket Nos. 50-237 and 50-249

Subject: Submittal of Integrated Initial License Training Examination Materials

Enclosed are the examination materials in support of the Initial License Examination scheduled for the week of February 6, 2006, at the Dresden Nuclear Power Station. These examination materials have been developed in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9. Please note that reference materials are attached to each individual examination question or item.

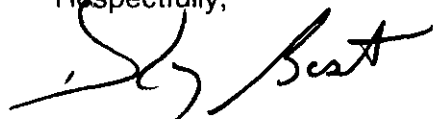

Some minor modifications have been made to the integrated examination outline in order to improve balance and content. These changes improve examination quality and are consistent with guidance in NUREG-1021, Revision 9.

Some modifications or adjustments to the examination material may be required due to procedural changes that occur after this submittal.

In accordance with NUREG 1021, Revision 9, Section ES-201, please ensure that these materials are withheld from public disclosure until after the examinations are complete.

Should you have any questions concerning this letter, please contact Mr. Pedro Salas, Regulatory Assurance Manager, at (815) 416-2800.

Respectfully,

Danny Bost  
Site Vice President  
Dresden Nuclear Power Station

Warrenville, IL 60555

SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL

Dear Mr. Crane:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the Dresden Nuclear Power Station.

The U. S. Nuclear Regulatory Commission (NRC) has completed its review of the operator license applications in connection with this examination and will separately provide a list of approved applicants to Mr. Chris G. Symonds, Training Director.

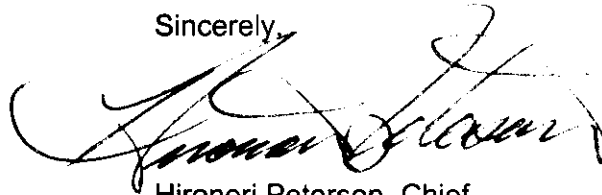

The NRC has approved the subject examinations and hereby authorizes you to administer the written examinations in accordance with Revision 9 of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," during the week of February 6, 2006. The NRC staff will administer the operating tests during the week of February 6, 2006.

Please contact Mr. Charles Phillips at 630-829-9739 if you have any questions or identify any errors or changes in the license level (SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's Agencywide Documents Access

and Management System (ADAMS). ADAMS is accessible from the Electronic Reading Room page of the NRC's public Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read 'Hironori Peterson', written in a cursive style.
