NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

**MAR 14 2006**

Lynn N. Carlton, M.D.  
Radiation Safety Officer  
Nuclear Diagnosis, Inc.  
P.O. Box 3371  
Springfield, MO 65808

Dear Dr. Carlton:

Enclosed is Amendment No. 55 to your NRC Material License No. 24-17561-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with my telephone conversation on March 7, 2006, with Larry Albaugh, Administrative Coordinator, Drs. Wheeler and Rossow are authorized to use byproduct material permitted by 10 CFR 35.300 only at Skaggs Community Health Center for out-patient purposes only under 10 CFR 35.75. If you wish to perform in-patient procedures under 35.300, you will need to amend your license and provide information concerning your in-patient facilities as outlined in NUREG 1556, Vol 9, Rev.1.

Please note that our address has changed. The correct address is listed on the above letterhead. All future correspondence sent to the NRC Region III Office should be sent to the above address.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The enclosed license document is exempt from public disclosure in accordance with 10 CFR 2.390, because its disclosure to unauthorized individuals could present a security vulnerability.

L. N. Carlton, M.D.

2

Sincerely,

  
James R. Mullauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
